

# Covid Risk Assessment

Risk Assessment Number	Covid - 1	Page	1	of	6
------------------------	-----------	------	---	----	---

Subject	Football Field & Pavilion (match days)	Signature	Assessment Date
Department	Committee	<i>Matthew Henson</i>	01/June/2020
Assessed By	Matthew Henson		<small>This risk assessment must be updated as and when new criteria is released, then validated and recorded on the last page</small>

The risk rating matrix and risk action table can be used to select the appropriate risk rating (to enter in the right-hand column below)  
 The last sheet of this form can be used to add any notes or observations and to expand on any additional controls required.

Serial	Hazard <small>What are the hazards</small>	Potential Harm <small>Who could be harmed and why</small>	Control Measures <small>What needs to be done</small>	People effected	Risk Ranking <small>L M H</small>
1	Covid – 19 Human to Human Spread	Passing on or catching the Virus from others	Do not come to football if you have the symptoms of COVID-19 and feel unwell. People must stay at home and self-isolate. Testing is available for those that are unwell and have the symptoms of COVID-19. Maintain Social Distancing football and keep at least 2 metres apart. Follow any one-way circuit including the use of designated entry and exit points. This will reduce the risk of face to face confrontation with others.	Everyone	<b>M</b>

Risk Rating:  L – Low (Activity can continue)  M – Medium (Activity can continue but must be monitored)  H – High (Activity must not continue)

# Covid Risk Assessment

			<p>The wearing of some form of face mask covering both the mouth and nose may reduce the risk of the virus being transmitted and spread in groups of people.</p> <p>Do not rush, be patient always stand back and wait for others to pass safely where it is difficult to maintain the 2-metre distance.</p>		
2	Covid – 19 Surface to Human – Human to Surface Spread	Passing on or catching the Virus from surfaces	<p>Always cough or sneeze into a tissue and dispose of the tissue responsibly after use.</p> <p>Wash hands frequently and thoroughly (at least 20 seconds) to remove possible virus traces from your hands. The use of hand sanitiser should also be used alongside an effective hand washing regime.</p> <p>Resist the temptation to touch face as the virus can enter your body from hands if they are contaminated with the virus.</p> <p>Frequently touched surfaces (door handles, push plates etc) should be thoroughly cleaned and/or sanitised at regular intervals each day.</p>	Everyone	<b>M</b>

Risk Rating:  L – Low (Activity can continue)  M – Medium (Activity can continue but must be monitored)  H – High (Activity must not continue)

# Covid Risk Assessment

			<p>Used cloths and tissues should be disposed of responsibly and straight away to reduce the risk of contamination.</p> <p>Sharing of equipment should be discouraged and if unavoidable items should be sanitised beforehand either by using the blue bins as directed or using the sprayer provided.</p> <p>The container doors and pavilion doors should be sanitised with Milton by spraying the surface with solution.</p>		
3	Covid – 19 Changing Rooms and Showers	Close Quarter / High Transmission Risk	<p>Changing rooms are closed, Players, coaches and referees should arrive in their kit. If the necessity arises where a private room is required, the referee changing room shall be made available – The referee room shall remain closed and sanitised until such time – Should the room be used, the room should be fogged immediately after it has been vacated.</p>	MH	L
4	Covid – 19 Toilet Facility	Transmission of virus in Heavy footfall area	Face covering must be worn, toilet facilities will be made available 60	User	M

Risk Rating:  L – Low (Activity can continue)  M – Medium (Activity can continue but must be monitored)  H – High (Activity must not continue)

# Covid Risk Assessment

			minutes prior to the earliest kick off, the toilet area should be cleaned at set intervals to maintain hygiene and reduce the risk of contamination.		
5	Covid – 19 Close quarter contamination while using the facilities	Coming face to face with another person or not being able to social distance.	Face covering must be worn, a strict one-way system will be implemented, the one way system should be emailed to all away managers at least 5 days prior to the game to allow transference to the away teams parents	Everyone	<b>M</b>
6	Covid – 19 contamination by others/track and trace/briefing	Allowing entry to anyone who may potentially have Covid 19	On arrival, it is expected that the away manager will issue a track and trace form to their Honeybourne Harriers Covid officer (track and trace requires one name and contact number from each household), all visitors will report to a designated “Covid waiting area” as directed by their Covid officer, their Covid officer will temperature check every person using an infrared thermometer, anyone with a temperature of 37.8 degrees or higher will not be permitted to remain, only those on the track and trace form will be permitted to enter the field, it is advisable that while in the waiting area visitors wear a face covering. The	Everyone	<b>M</b>

Risk Rating: ■ L – Low (Activity can continue) ■ M – Medium (Activity can continue but must be monitored) ■ H – High (Activity must not continue)

			designated Covid officer will read out a brief detailing the rules and procedures while at Honeybourne Harriers ground, anyone not following the procedures will be asked to leave.		
7	Covid – 19 in the pavilion	Cross contamination from Human and surfaces	Limited number of people are permitted into the pavilion, Face coverings must be worn. Signage displayed will show the requirements of entering the pavilion. Surfaces will be wiped with antibacterial wipes on a regular basis, volunteers in the pavilion will wear face coverings and surgical gloves at all times.	Users	L
8	Covid – 19 Parking	Parking to close to one and other thus restricting the social distance requirements	There is ample parking in the main car park, you will be expected to leave a clear car width between each car when parking, if cars are too close, the owners will be required to move their car.	Driver	L
9	Covid – 19 Equipment	Cross contamination from equipment	All play/training equipment will be sprayed, wiped or submerged in antibacterial fluid prior to its use	Users	L
10	Covid – 19 managers, coaches, parents, volunteers	Failure to comply with training and risk assessment	All Honeybourne Harriers manager, coaches, parents and volunteers have been given a rigorous risk assessment, Covid officer and welfare officer to review actions on each day and amend	HH	L

Risk Rating:  L – Low (Activity can continue)  M – Medium (Activity can continue but must be monitored)  H – High (Activity must not continue)

# Covid Risk Assessment

			risk assessment and/or further training as necessary.		
11	Covid – 19 first aid	Exposure to external contamination from third party/ first aid administered	It is considered that the first response for first aid should come from a family member or someone from the same bubble as the person injured, however, in cases where there is no family member, the coach/manager should be called to the pitch and administer first aid; in life threatening situations the manager/coach will attend as the official first aider. All manager/coaches have a fully stocked first aid bag with ample surgical gloves and antibacterial spray. If a manager/coach has administered first aid, he/she should seek to wash and sanitise him/herself as soon as practically possible	Player/manager/coaches	M

Risk Rating:  L – Low (Activity can continue)  M – Medium (Activity can continue but must be monitored)  H – High (Activity must not continue)
